At the first sign of a cold

Description:

Unlike some Yin Chiao imported from China, Dr. Shen's Yin Chiao contains no drugs, dyes, pharmaceuticals, animal products, or unlisted ingredients. Each tablet contains a generous amount (750 mgs.) of premium grade wildcrafted herbs. Each tablet is also coated with natural food glaze and shaped for easy swallowing.

Usage:

Colds originating in the throat seem to respond best to Yin Chiao, which is taken at the first sign of cold. Keep them with you during cold season; the sooner you take them, the better they work. Yin Chiao contains remarkably simple and safe herbs. They are: honeysuckle, forsythia, balloon flower, peppermint, edible burdock, crested grass, schizonepeta, fermented soybean, and Chinese licorice root.

Amazing!

I purchased these in the middle of a terrible cold and they allowed me to clear up and function. I have shared this product with many friends and all are amazed at how these pills work. I would recommend this product highly.
